

## **Wood Ash Spreader Highlights:**

- 4 Ton Wet Lime / Wood Ash Spreader
- PTO driven spreader (540 RPM)
- Stainless steel body & hopper
- No hydraulics needed
- Flotation tires
- 50 or more horsepower tractor is required to run it
- Soil test is recommended to determine your wood ash application rate
- Empty weight of spreader is 2800 pounds
- Spreader needs to be greased regularly, please check before and after use
- Can only be used for wood ash or lime
- The weight of the spreader and the amendment cannot exceed 1.5 times the weight of the tractor
- Coos County and Essex County residents are able to rent
- The Lessee is responsible for towing to and from the County Farm (or from another farm if being used back to back)
- The spreader needs to be cleaned (sprayed out) and greased before it's return

## **Things that are required before you rent:**

- Contact the Coos County Conservation District to sign the rental agreement
- A certificate of insurance that lists the Coos County Conservation District as additional insured (your insurance company can email us a copy, I can keep on file for future use)
  - o Minimum general liability of \$300,000 per occurrence is required
- Payment
